Stated dimensions are measured to the exterior boundaries of the room or walls and do not include the thickness of exterior doors and windows. The area of the unit, determined to meet the minimum floor area, is 1,093 sq. ft. for units. Note that measurements of rooms are taken on the floor plan and are generally taken at the greatest points of each given room (as if the room were a perfect rectangle), without regard for any columns. Accordingly, the area of the actual room will generally be smaller than the product obtained by multiplying the stated length times width. All dimensions are approximate and may vary with actual construction, and all floor plans and development plans are subject to change.
